

Product Description

Xcelaero's Galeforce series of fans are optimized for high performance, high efficiency, and low weight. The Galeforce fans are high-performance vane axial fans designed to be robust, light weight, compact, and low noise for the aerospace and defense market. Galeforce fans utilize 5 axis machined impellers and guide vanes to maximize performance. The fans in this series can provide between 200 cfm and 20,500 cfm of flow. The fans are available with a variety of motors and can run off AC or DC power. If an existing fan does not meet your requirements, Xcelaero can design a custom fan for your application.

Specifications

Operating shaft speed	5,660 rpm
Max flow rate	20,400 cfm
Max ΔP	33.6 in. WC
Overall length (A)	14.5 inches
Overall Height (B)	24.2 inches
Overall Width (C)	22.6 inches
